

Artificial Intelligence - Practice Questions

1. What does AI stand for? A. Artificial Intelligence B. Automated Input C. Advanced Integration D. Algorithmic Interface
2. True or False: AI can learn from data without being explicitly programmed.
3. Which of the following is an application of AI? A. Image recognition B. Manual calculations C. Typing documents D. Printing papers
4. True or False: Machine Learning is a subset of AI.
5. Which algorithm is commonly used in AI? A. Decision Trees B. Bubble Sort C. Binary Search D. Linear Search
6. True or False: AI systems always give 100% accurate results.
7. What is NLP in AI? A. Natural Language Processing B. Neural Logic Program C. Numeric Learning Process D. None of these
8. True or False: Robots are always considered AI.
9. Which of the following is a type of Machine Learning? A. Supervised Learning B. Manual Learning C. Hard Coding D. Printing
10. True or False: AI is used in recommendation systems like Netflix and Amazon.
